

OFF-GRID POWER SOLUTIONS AND SUSTAINABLE ENGINEERING SERVICES FOR THE PILBARA AND BEYOND

RED ROCK
SERVICES WA

CAPABILITY STATEMENT

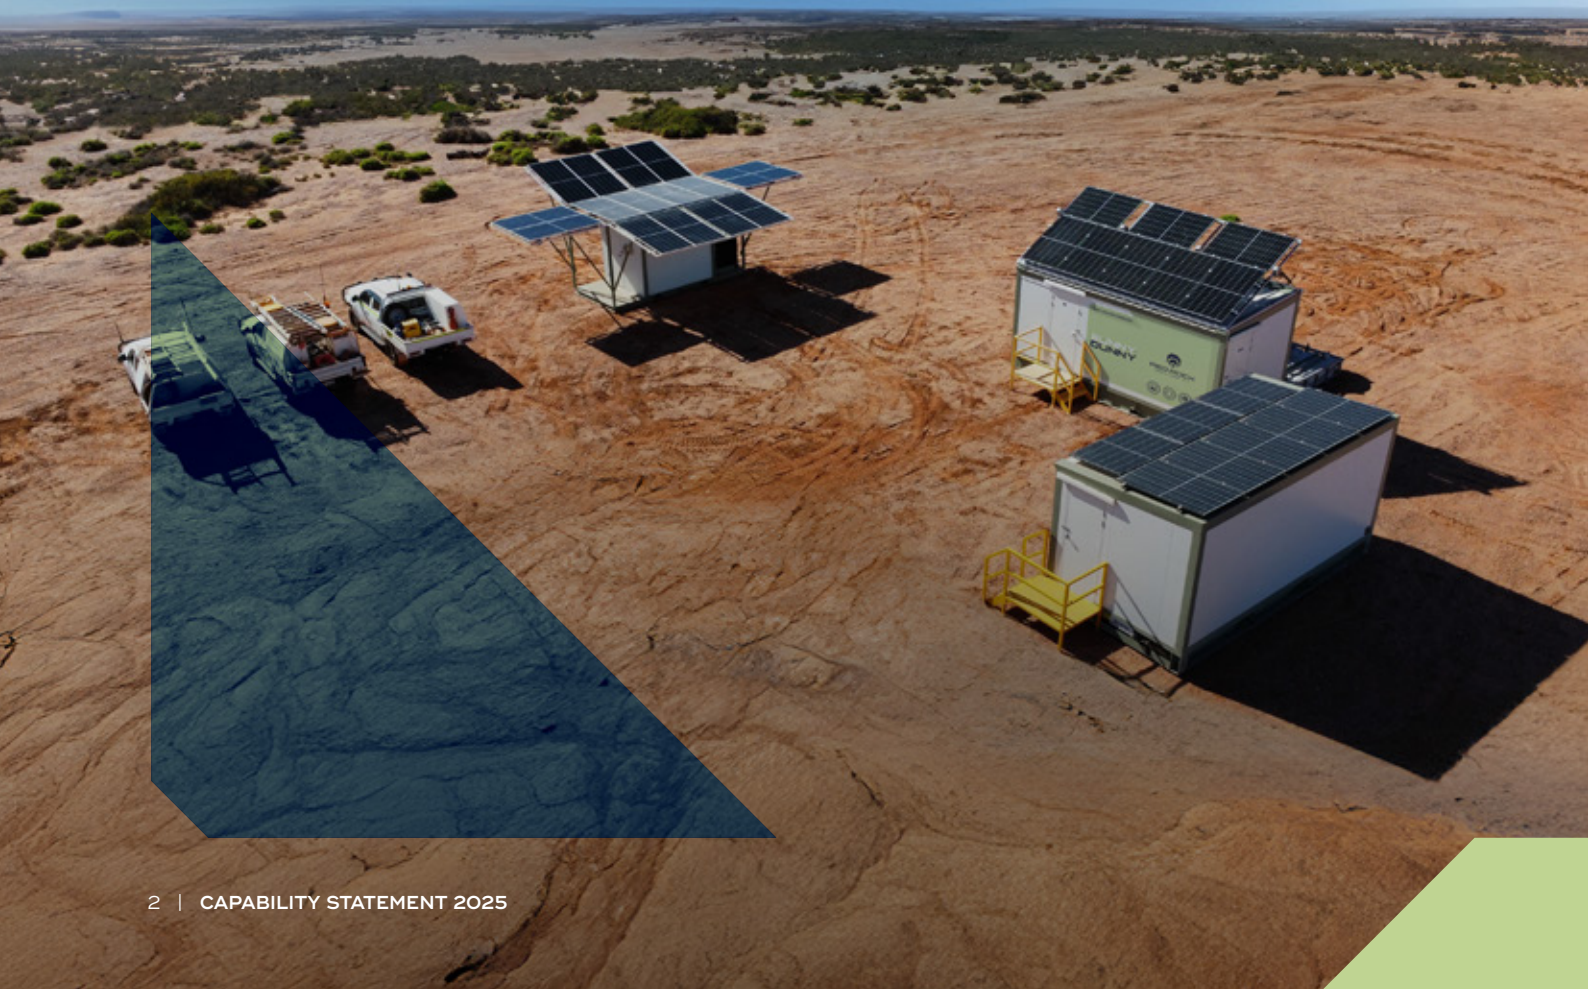

WE HAVE A **BOLD VISION** FOR DECARBONISING INDUSTRY

OUR VISION IS TO ELECTRIFY WORKSITES WITH RENEWABLE ENERGY

We are passionate about electrifying businesses with green powered innovation. Our Australian manufactured, off-grid power solutions and transportable workspaces and ablution blocks make industry's net zero aspirations a reality.

Red Rock Services is an Aboriginal-led business with a passion for minimising impact on Country. We passionately believe that with the technology, the engineering capability and the resources we have today, we can do things differently and ensure a sustainable future for the next generation.

As an engineering and contracting services business, with the full suite of industrial expertise across **Structural, Civil and Environment, Construction, Building and Facilities Maintenance** on hand, we draw on our individual strengths to ensure we achieve the best possible outcome for our clients.

WE HAVE DUAL CAPABILITY: NET ZERO PRODUCTS AND FULL SMP ENGINEERING SERVICES

OUR PRODUCT DESIGN AND MANUFACTURING CAPABILITY IS EVIDENCED BY OUR AWARD-WINNING COOL CRIBS, SUNNY DUNNY AND GREEN GENERATORS

Proudly designed and manufactured in Western Australia, our first of its kind Cool Crib design, won us the Karratha Districts Chamber of Commerce and Industry 2022 Business Innovation Award. We manufacture these 100% solar powered mobile workspaces and net zero product range from our Karratha workshop, ready for rapid deployment to remote sites both locally and internationally.

OUR ENGINEERING AND CONTRACTING SERVICES MEET THE NEEDS OF THE MINING, ENERGY, OIL AND GAS INDUSTRIES

We employ a strong 100+ person team in the Pilbara to deliver services vital to heavy industry and the Western Australian economy. With decades of experience our people and skills are ready to be mobilised at a moment's notice.

OUR MOBILE BUILDINGS AND AIRCONDITIONED ABLUTION BLOCKS DECARBONISE REMOTE WORK SITES

WE PROUDLY MANUFACTURE 100% SOLAR POWERED COOL CRIBS AND SUNNY DUNNYS RIGHT HERE IN KARRATHA, WESTERN AUSTRALIA. COMPLETELY INDEPENDENT FROM DIESEL GENERATORS, OUR NET ZERO PRODUCTS RUN CONTINUOUSLY WITH BACK UP BATTERY POWER

Our standard 6.0m x 3.0m Cool Crib can be furnished and configured to suit your needs whether that be a heat respite room, site office, or lunchroom.

Unlike other portable ablutions and amenities, our Sunny Dunnys offer a private, secure and cool space when you need it most. Featuring independent male/female access with standard customisation of 3 Male, 2 Female Cubicles.

Equipped with 3.52KW solar power and 24KWH battery storage, the Cool Crib and the Sunny Dunny are designed to keep you operational without sunshine.

FEATURES & BENEFITS

- READY TO RENT OR BUY
- RAPIDLY DEPLOYABLE IN UNDER AN HOUR
- AIR-CONDITIONED
- CYCLONE RATED REGION D CAT 2
- REMOTE SOLAR PANEL MONITORING
- WATER REPLENISHMENT AND WASTE REMOVAL OPTIONAL SERVICE

OUR GREEN GENERATORS HARNESS THE ELEMENTS TO ELECTRIFY OPERATIONS NATURALLY

REDUCE YOUR CO2 EMISSIONS INSTANTLY, WITH GREEN POWERED INNOVATION. OUR SOLAR HARVESTER TRAILERS AND BI-SOURCE WIND-SOLAR CUBES ARE GUARANTEED TO DRAMATICALLY REDUCE OR REMOVE DIESEL POWER REQUIREMENTS

Not sure which product to choose? With data, you can make a sound decision when you choose to replace your diesel generator with one of our off-grid power generation solutions.

We'll conduct a baseline survey on your existing diesel fleet to demonstrate comparative CO2 emissions, capital outlay, maintenance activity and ensure continuity of power supply.

FEATURES & BENEFITS

- LOW CAPEX
- GREEN POWER AT SCALE
- RAPIDLY DEPLOYABLE, FAST SETUP
- REMOTE SOLAR POWER MONITORING

POWER WORKSITES WITHOUT DIESEL

REPLACE NOISY AND FUEL-DEPENDENT GENERATORS WITH OUR SOLAR AND WIND POWERED RANGE

Our green generators are manufactured in a range of sizes so that you can choose the one that's right for your project's needs. As your site's power requirements increase, simply scale up with another or a bigger generator.

Our bi-source wind and solar cube has enough power to keep four Cool Cribs running continuously.

GREEN GENERATOR RANGE

- HOG-1: 3.1KW WITH 24KWH BATTERY STORAGE
- HOG-2: 3.51KW WITH 48KWH BATTERY STORAGE
- HOG-3: 4.29KW WITH 48KWH BATTERY STORAGE
- THE POWER CUBE (WIND-SOLAR GENERATOR): 11.52KW WITH 48KWH BATTERY STORAGE

TRUSTED ENGINEERING SERVICES FOR MINING, ENERGY AND CONSTRUCTION

WITH 60+ YEARS COMBINED EXPERTISE BEHIND US, IN ADDITION TO AN EXPERIENCED LOCAL TALENT POOL, WE HAVE THE CAPABILITY TO ENGINEER SOLUTIONS LOCALLY IN KARRATHA

From our fabrication headquarters in Karratha, we can rapidly get to site, address a challenge and deploy a solution. We construct, deliver and install custom engineered works in the fastest of turnaround times to minimise downtime.

Our construction project management capability allows us to oversee each job from start to finish - including procurement, fabrication, installation and pre-commissioning support. We also provide complete sub-contractor management, coordinating all associated construction services such as earthworks, civils, concreting and electrical work.

We communicate with our clients throughout the custom-build process to ensure maximum visibility while the works are in progress through to delivery and installation.

ENGINEERING CAPABILITY

- STRUCTURAL MECHANICAL PIPING
- WELDING AND FABRICATION
- VESSEL MOBILISATION AND DEMOBILISATION
- PLATE DEVELOPMENT
- CHUTE WORKS
- LINER PLATE WORKS
- MOBILE EQUIPMENT REPAIRS
- BUCKET AND TRAY REFRESHMENT
- NON-DESTRUCTIVE TESTING AND HYDROTESTING

RELIABLE CONTRACTING TRADES

AND SERVICES FOR MAINTENANCE AND CAPITAL WORKS

**WHEN YOU'RE DELIVERING MAJOR PROJECTS,
YOU NEED CONTRACTORS YOU CAN TRUST.
WE PRIDE OURSELVES ON OUR HARD-WORKING
ETHIC AND COMMITMENT TO QUALITY SERVICE**

We offer access to quality tradespeople, plant and machinery to support industry with immediate all-round local support in the Pilbara. Whether we are providing project delivery teams, shutdown teams, labour hire or mobile maintenance support, we give our best every time.

SUITE OF TRADES

- PROJECT MANAGERS AND SUPERVISORS
- HIGH PRESSURE AND CODED WELDERS
- PIPE FITTERS
- BOILERMAKERS
- MECHANICAL FITTERS
- ELECTRICIANS
- CARPENTERS
- PLUMBERS
- TRADE ASSISTANTS

CONTRACTING SERVICES

- MAINTENANCE AND CAPITAL WORKS
- PROJECTS AND FACILITIES MANAGEMENT
- PROJECT DELIVERY TEAMS
- SHUTDOWN SUPPORT TEAMS
- LABOUR HIRE
- MOBILE MAINTENANCE

QUALITY ASSURANCE, QUALITY CONTROL

WITHOUT COMPROMISE AND DELIVERED DAILY

OUR PRODUCTS ARE DELIVERED TO THE HIGHEST INTERNATIONAL QUALITY STANDARDS FOR BOTH MATERIALS AND MANUFACTURE

We constantly seek to improve the way we operate for the benefit of our clients and end-users. We treat all contracts with the same commitment to service, quality and support, and focuses on delivering custom solutions that keep your operations moving.

CERTIFIED

- ISO 9001 QUALITY MANAGEMENT
- ISO 45001 OCCUPATIONAL HEALTH AND SAFETY MANAGEMENT
- ISO 14001 ENVIRONMENT MANAGEMENT SYSTEMS

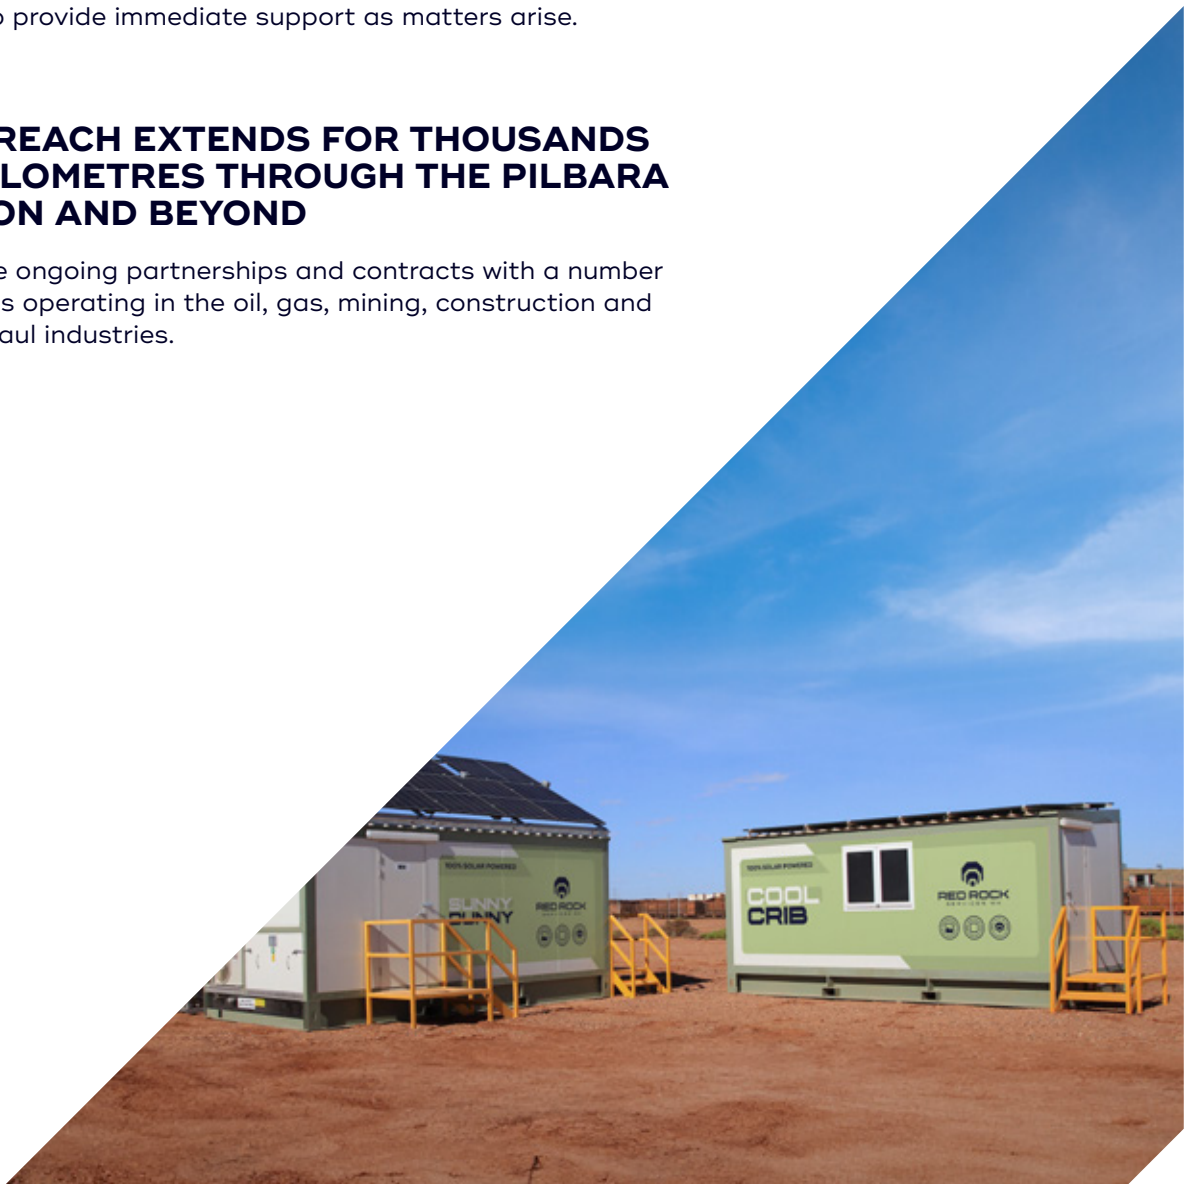

WHEREVER YOU GO, WE WILL BE THERE TO SUPPORT YOU

ONCE OUR PRODUCTS ARE ON THE GROUND, WE PROVIDE ONGOING SUPPORT THROUGH OUR 24/7 SOLAR PANEL REMOTE MONITORING SYSTEM.

We are quick to identify where energy efficiencies can be improved and maintain responsibility for our products whilst in the field. We are transparent, responsive and ready to provide immediate support as matters arise.

OUR REACH EXTENDS FOR THOUSANDS OF KILOMETRES THROUGH THE PILBARA REGION AND BEYOND

We have ongoing partnerships and contracts with a number of clients operating in the oil, gas, mining, construction and heavy haul industries.

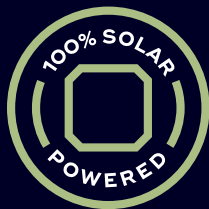

**WE INVITE YOU TO
MINIMISE
YOUR IMPACT
ON COUNTRY
WITH OUR INNOVATIVE,
ALTERNATIVE SOLUTIONS**

AS AN ABORIGINAL-LED BUSINESS, FOUNDED ON NGARLUMA NGURRA (NGARLUMA COUNTRY) IN 2019, WE ASPIRE TO TRANSFORM THE WAY HEAVY INDUSTRY OPERATES BY PROVIDING CLEAN ENERGY SOLUTIONS TO ELECTRIFY YOUR OPERATIONS.

Our net-zero product range used in combination with our heavy-duty green generators can replace diesel with reliable, clean energy to fully power remote sites.

Visit our Karratha Showroom anytime to sight our Cool Cribs, Ablution Blocks, Green Generators and our Bi-Source Generator to find out more.
